Dear Marty,

It was indeed a pleasure working with you and Bobbi on our annual fundraiser "*Feast with the Beasts*". I was very impressed with the amount of information your company was able to provide via three (3) screens around the zoo during the event.

Many of our sponsors and guests were intrigued and impressed to see their name "in lights". This is an awesome tool for getting the information out to the guests. It was informative and entertaining as well.

We at the Zoological Society of Florida cannot thank you enough for your dedication and hard work and your support in help us to raise over \$225,000 towards our mission to provide conservation and educational programs which awaken all of us to the challenges of endangered species and disappearing wild habitats. We thank you and hope to have to pleasure of working with you again in the near future.

Wild regards,
